Incenti: The eCommerce Platform for Business Rewards.

Motivate, Recognize and Reward, Easily.

Incenti

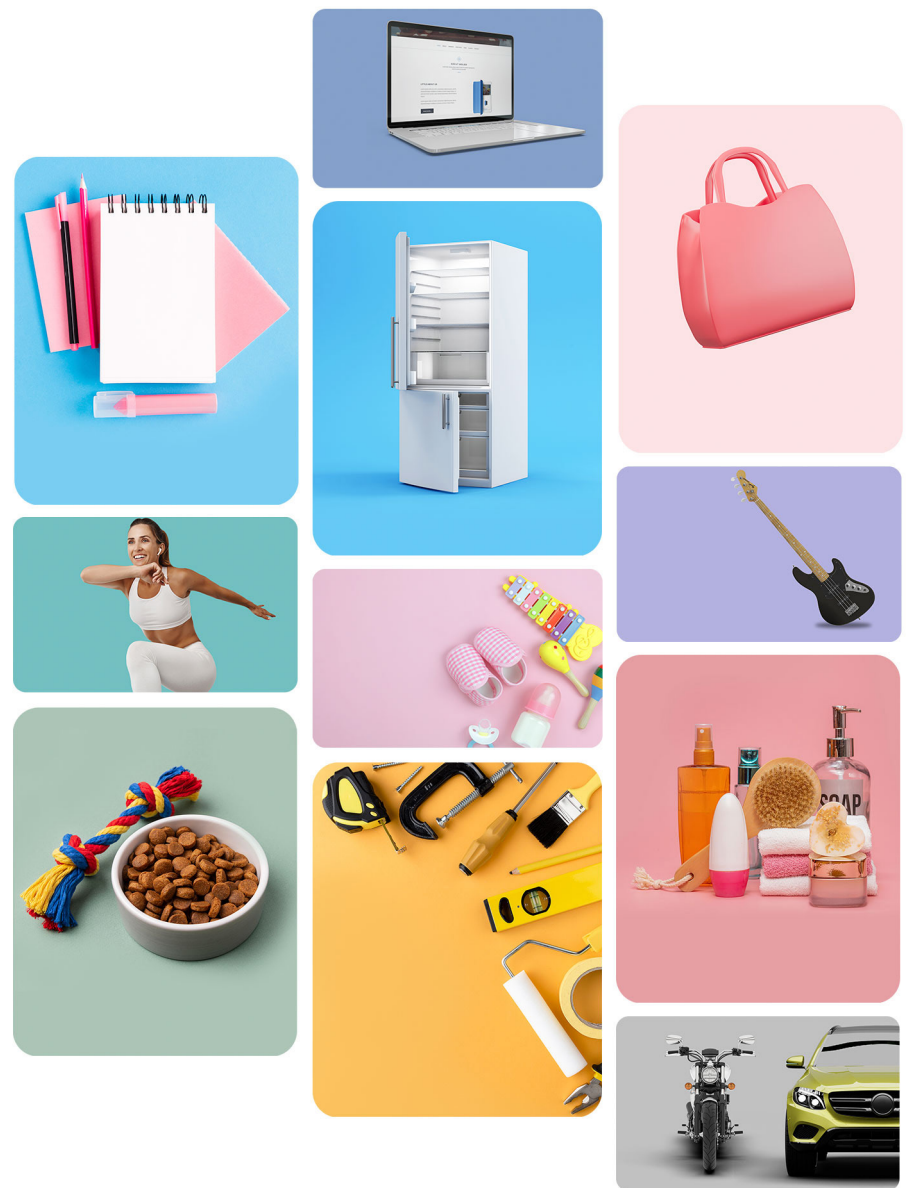

What is Incenti?

An innovative solution for business rewards.

Incenti is the rewards platform designed for companies to easily deliver and manage prizes and incentives.

Recognize and motivate your employees, clients, distributors, or your target audience with gift certificates that can be redeemed in our catalog of more than **10,000 options**, including physical products, digital items, experiences, and much more.

Totally **tax deductible (VAT included)** and 100% online.

Who is it for?

A service designed for companies looking to build loyalty and incentivize their target audience.

Who uses it?

- Medium and large companies that seek to motivate employees, strengthen relationships with distributors, and build customer loyalty through deductible and easy-to-implement solutions.

Why choose Incenti?

- Increases productivity and motivation.
- Improves employee and customer retention.
- Strengthens business relationships and generates loyalty.

How does it work?

A simple and efficient experience.

Purchase of digital funds:

The company acquires funds through our commercial executives, with a minimum amount of \$500 pesos per electronic folio and the flexibility to choose the desired value. (Folio amount + a % administrative fee)

Point redemption:

Users enter their code on our platform (or we pre-activate it) and receive points equivalent to the value of the certificate (1 MXN = 1 point).

Reward delivery:

Incenti takes care of the direct shipment to the final user in the case of physical rewards. If they are digital, we send them directly through the platform and email.

Delivery of codes:

We send the activation codes by email to the users or directly to the company so that it can distribute them.

Reward redemption:

With these points, they select their favorite rewards from the catalog. If they don't have enough balance, they can complete the purchase with a payment method.
